The IKA Infrared Development Bureau, Berlin W.8., Friedrichstrasse 58, Tel. 42 06 33, is principally concerned with counseling industrial firms interested in infrared. As for development, it is concerned with pure heat application of infrared rays, for example, through the construction of suitable oven installations. The infrared ray sources for this sort of installation are produced in the Berliner Gluehlampenwerk (Berlin Light Bulb Plant). Dark infrared tubes made of ceramic material are supplied by RFT-Dralowid-Werk, Teltow, for the same purpose.
